Hi Mike,

Thanks for letting me know you talked with him. He left a similar msg on my cell phone re: organized group supposedly going door-to-door telling people not to let us sample. His question to me was about the legality of their actions. Wondered if they were interfering with an ongoing "criminal investigation". I have not talked with him yet.

Alex Mandell is the CIC in the field today. I'll ask Helen if he mentioned anything about this group in his report-out. Thanks.

Trish,

Wanted you to be aware that Craig Stevens called me today on my cell phone while I was out of the office. He told me that he left you a voice mail as well. He's concerned about a group of citizens that supports Cabot and is going door-to-door to tell residents to not let EPA in their homes and to sign a petition against EPA.

He's concerned that they may sway some people against getting testing, etc. I told you Mr. Stevens that EPA would continue to do our communication/education of residents and it is ultimately up to residents if they allow access to us. Just wanted to make sure you're aware of my communication with Craig. Not sure of the accuracy of Mr. Steven's account and whether you've encountered any from the group supporting Cabot.

Mike
